

The Vita Group – Gender Pay Gap Information

The data presented here has been prepared in accordance with the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017. The figures are taken from employee data as at 5th April 2018. They are reported to the UK Government and are published on the Government's Gender Pay website.

First an explanation of what these figures represent:

The Gender Pay Gap is the difference between the gross hourly earnings for all men and the gross hourly earnings for all women in Vita's UK businesses. This is very different to the term Equal Pay, which relates to men and women being paid the same for the same work.

The mean gender pay gap for the whole of the UK, reported in 2017 by the Office for National Statistics was 14.3%.

Vita is reporting its gender pay gap data in line with the government's [gender pay gap reporting regulations](#) for its one employing entity with more than 250 employees. Vita has voluntarily added its gender pay gap data for its remaining three employing entities with less than 250 employees in order to provide the complete picture across its UK businesses.

Vita's reportable figures for 2018 are as follows.

- The Mean Gender Pay Gap for Vita's UK businesses is 12.96%
